## **Quarterly Information Meeting on the Cleanup of Hanford**

**June 29th**

**Seattle Center  
Conference Room A on the Third Floor  
of the Seattle Center House  
Seattle, Washington**

7:00-7:30 p.m.      Opening Presentation  
7:30 p.m.            Question-and-Answer Session

At 7 p.m. representatives of the U.S. Environmental Protection Agency and the Washington Department of Ecology will discuss the first formal work to be conducted under the recently signed agreement to clean up Hanford waste sites. Representatives of the U.S. Department of Energy will also be on hand to answer questions about the first cleanup site -- a vehicle maintenance area -- and other questions you might have about the cleanup and compliance program.

The work plan for the first cleanup site, the 1100-EM-1 operable unit, is available for public comment from June 15, 1989 to July 14, 1989. It can be reviewed in the DOE Reading Room in the Federal Building.

For more information contact:

Ken Morgan, DOE, (509) 376-7162  
Claire Rowlett, EPA, (206) 442-1099  
Jerry Gilliland, Department of Ecology, (206) 459-6674
